

**FAMILY
PHYSICIANS**

DO *more*

A career that combines science, empathy, and meaningful connections.

DO *more*

Osteopathic family physicians do more for their patients than just treat their symptoms. They treat the whole person with a hands-on approach, building meaningful relationships that support their patients for a lifetime.

DO *what you like!*

Enjoy the freedom to choose the specialty area and environment that works best for your personal and professional life.

- Work with Olympic athletes at a private practice.
- Treat patients and their families from birth to death in rural hospitals.
- Teach students in academic or clinical settings.

**WHAT
WILL YOU**

DO *next?*

Visit familyphysiciansdomore.org to see if you're a good fit for osteopathic family medicine, dive into the daily lives of practicing physicians, and get the facts about what it takes to achieve a future in osteopathic family medicine!
