

Residency Program Evaluation of the Faculty

Faculty Member Name: _____

Instructions:

Evaluation is a way of reviewing one's strengths and weaknesses, of taking stock and establishing useful goals. The faculty is very interested in your assessment of our performance. The following evaluation form is meant to be a guide. Please rate your impression for each of the following positive statements, using the scale below, as they apply to the particular faculty member. We would also encourage additional feedback in the comments box. Thank you.

*5= Outstanding Performance 4= Very Good Performance 3= Good performance 2= needs improvement
1= Needs significant improvement N/A Not Available*
