

Osteopathic NeuroMusculoskeletal Medicine Residency Program- Evaluation of the Program

Instructions:

Evaluation is a way of reviewing one's strengths and weaknesses, of taking stock and establishing useful goals. The program director is very interested in your assessment of the performance of the program. The following evaluation form is meant to be a guide. Please rate your impression for each of the following positive statements, using the scale below, as they apply to the program. We would also encourage additional feedback in the comments box. Thank you. 5= Outstanding Performance 4= Very Good Performance 3= Good performance 2= needs improvement 1= Needs significant improvement N/A Not Available
